

It has come to my attention that LPFM may be given priority over FM translator service, and that I may not have access to K-LOVE radio in the future. K-LOVE is the primary radio station that I listen to not only in my own living area, but also while I drive to other areas for work. I try to find K-LOVE in every city I travel to.

K-LOVE provides wholesome values and offers encouraging and uplifting music and messages. K-LOVE is of great value to the local communities, and is personally a source of enjoyment and comfort to myself. Please ensure K-LOVE is always available to a wide audience.
